# ***Xerox 5088***

## ***The Power to Keep Pace***

## ***The current environment...***

Xerox recognizes that in today's modern office environment there is a strong demand for a reliable, top quality, high volume copier that can handle complex tasks and a broad variety of work. Job turn-around time and machine uptime are of utmost importance to you, our customers.

The Xerox 5088 copier is designed to accomplish this in the print room as well as in the office. It's designed to keep pace.

### ***The pace of life...***

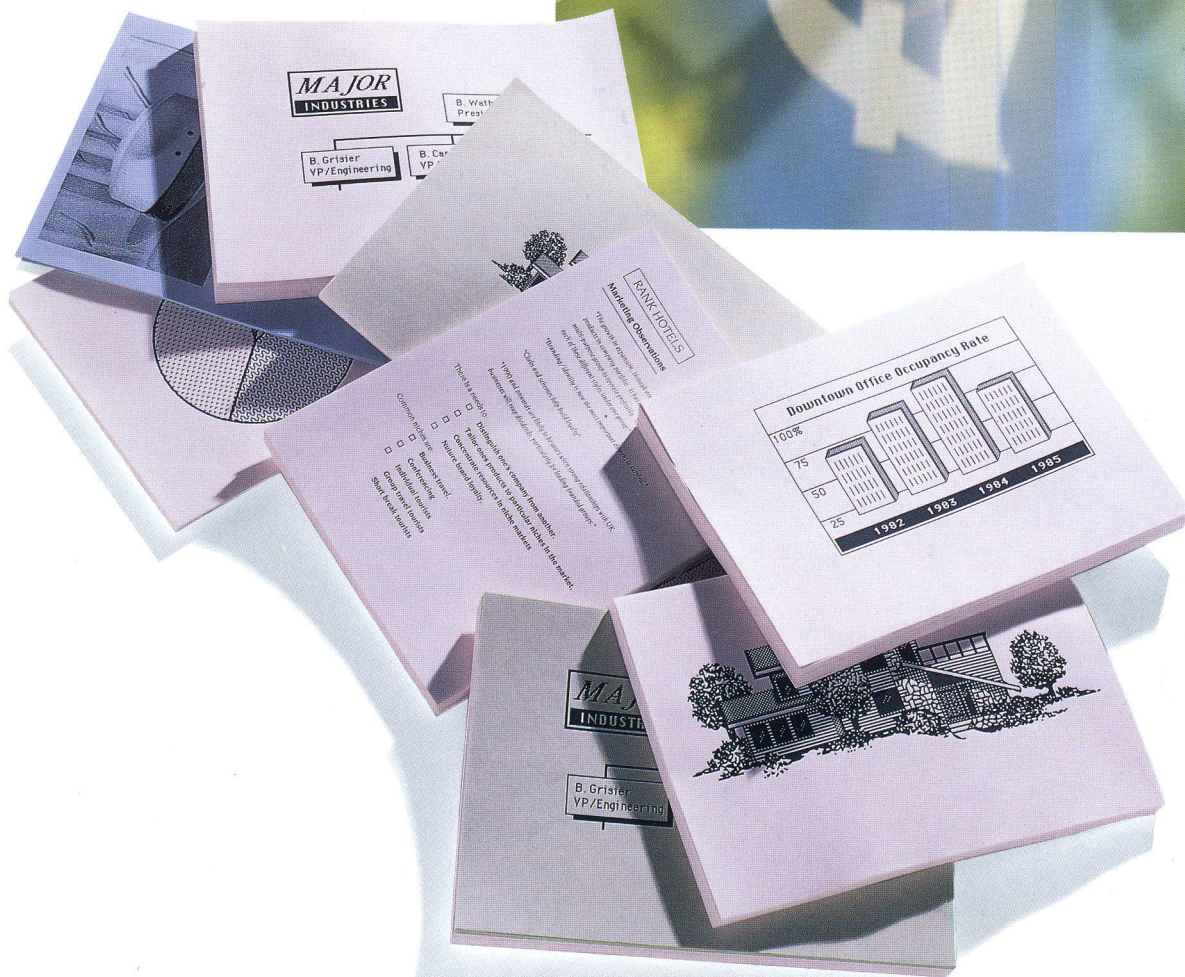

Today it is vital that your copier can keep up with the incredible pace and short turn-around times that business now demands. The Xerox 5088 copier is a fast machine producing 92 top quality copies a minute... producing 46 copies a minute from continuous computer forms.

But the Xerox 5088 is not just simply a high speed machine...every aspect of its day to day operation is designed to save you time. Time that can then be spent on other projects.

# A long life and a successful one...

The Xerox 5088 is a superbly engineered machine developed from a proven successful formula combining versatility with ease of use. The Xerox 5088 will go on giving you first class output at great speed for many years to come. It is designed specifically to work hard for a living.

## Anything for a simple life...

The Xerox 5088 copier balances "user friendliness" and ease of use with an ability to handle the most complex production tasks. The heart of the Xerox 5088 machine is the control panel... a perfect example of "power at your finger tips". Even inexperienced operators can work their way simply, logically and quickly through the most demanding job.

For the operator, help is always at hand. All the messages and information are in plain language... no jargon... no technical terminology... simply five hundred messages available to provide logical, clear advice!

With the Xerox 5088 it is possible to pre-program for instant recall and non-stop operation, nine of the most complex or frequent tasks the copier is

asked to do. So time and money are saved while accuracy is assured in completing the job in hand.

### **A powerful combination of simplicity, versatility and copying power...**

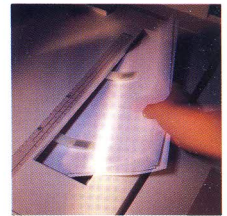

With features such as automatic cover mode, slip sheet insertion, and on-line stitching, it is possible to produce highly professional documents that not only look good, but are easy to read.

By using the Xerox 5088 Recirculating Document Handler you can automatically make two-sided copies from one-sided or two-sided originals, thus saving on paper costs and filing space.

For single documents use the semi-automatic document handler for fast throughput and ease of use.

*Fast single sheet feed*

*Convenient top tray output*

## Capacity to handle high volumes...

With the Xerox 5088 you can “load while running”, so the job carries on uninterrupted. At the output end the Xerox 5088 has a 2,000 sheet high capacity stacker that can handle even the longest runs, flexibility built in, productivity assured.

### **Flexible stitching options...**

To allow every set of documents you produce to be finished in the most efficient way, the Xerox 5088 offers both on-line and off-line stapling. The production finisher automatically provides proportional stitching to ensure each set has a staple size to accommodate its thickness up to 50 sheets - 20 lb substance. Alternatively the off-line stapler has a 5,000 staple capacity offering versatility in finishing and flexibility of staple positioning - up to 30 sheets.

A handy de-stapler has also been added to the Xerox 5088 to overcome the problem of removing staples.

*Load while running*

*Versatile stapling*

# Help is always at hand...

If the operator needs help during a job or while setting one up, the "information button" is there to help. This will guide the operator through the steps required and in no time at all the job will be finished.

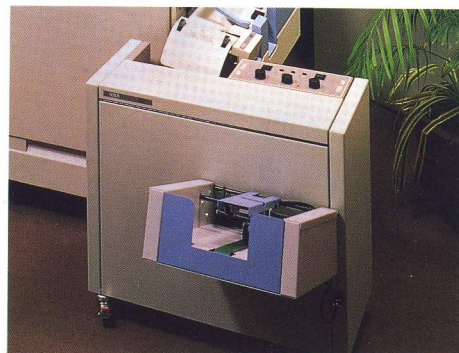

## Ensuring top quality...

The Xerox 5088 has been developed as a production machine designed to give you the flexibility to produce top quality jobs, consistently. Whether it be a report, a manual with technical details that requires regular updating, a price or parts list, or a presentation which requires a professional finish - the Xerox 5088 will provide you with the tools to complete the job.

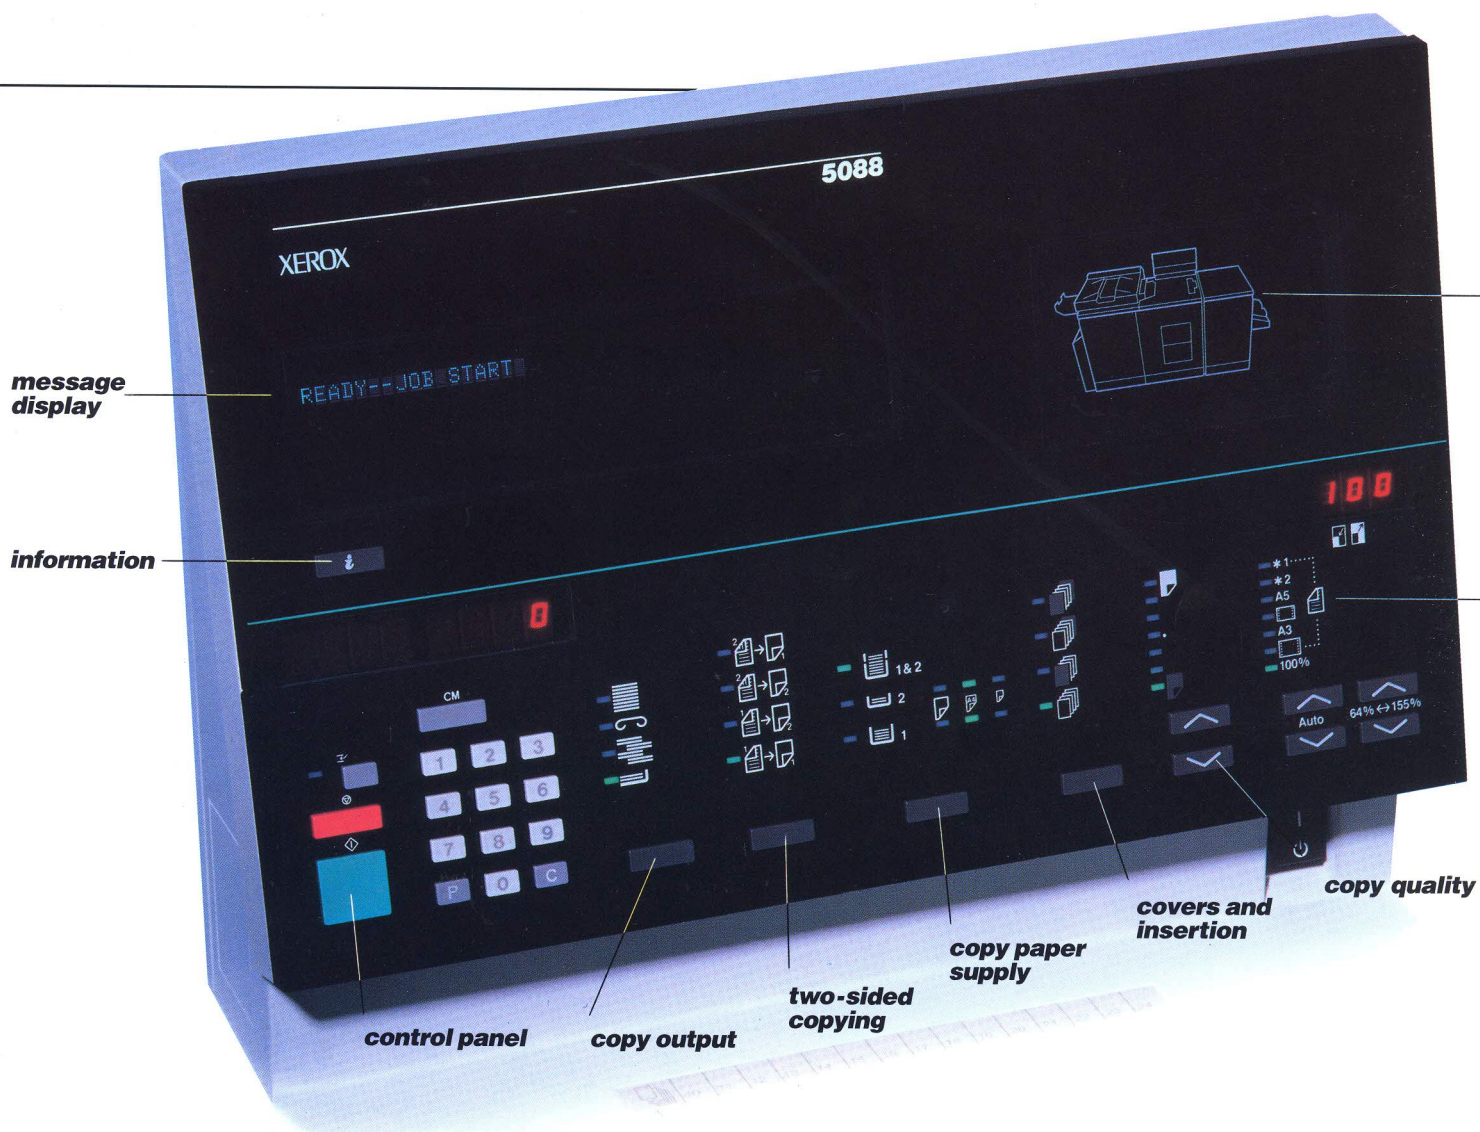

In addition, the optional Xerox ASF (Automatic Stapler Folder) can provide other time saving features as an on-line accessory to the Xerox 5088.

The Xerox ASF automatically staples and folds 8 1/2 x 11 copies into 5 1/2 x 8 1/2 books, so eliminating off-line stapling and folding tasks. As an example, two 8 1/2 x 11 sheets can be simply stapled and folded into 5 1/2 x 8 1/2 pages at the speed of 23 booklets per minute.

The ASF may also be used as a free standing off-line device.

Automatic Stapler Folder (ASF)

## **Xerox Supplies**

Xerox offers a complete line of superior quality copier, data processing and general office supplies. The quality of our supplies helps ensure your machines have the longest working life possible. And you'll have the convenience and efficiency of ordering all your office supplies from one source. Our toll free phone number and computerized telemarketing system take the bother out of ordering supplies. Simply call: 1-800-668-0199 (or 733-9400 in Toronto).

## **Xerox Financial Alternatives**

We'll make it easy for you to own the Xerox 5088 by providing an original financial plan tailored to your requirements to buy or lease the copier. Ask your Xerox Sales Representative for more details.

## **RIC helps us fix problems before you even know about them**

(RIC) Remote Interactive Communications is a 24-hour remote diagnostic system on your 5088. Through a sole-use phone line, RIC provides an automatic connection to our central computer. In this way, we monitor the status of your machine against detailed performance criteria. Not only that, RIC keeps a running tab of how many copies are produced monthly.

Best of all, RIC assures you the 5088 is reliable. For instance, if RIC identifies a potential problem, we can schedule a Service Call before it's really needed and at a convenient time for you. So you can avoid serious interruptions to your work, and also avoid service calls at a time when you'd rather be working. And, because of the information RIC provides, our service people will often know which tools and/or parts are needed before they arrive. Now the partnership, between Xerox service and you our customer, is pro-active.

## **Xerox Total Satisfaction Guarantee**

If you are not satisfied with your Xerox equipment, at your request Xerox Canada will replace it without charge to you with an identical model or one with comparable features and capabilities.

The term of the Xerox Total Satisfaction Guarantee is three years from equipment installation date.

This Xerox Total Satisfaction Guarantee applies to Xerox equipment acquired by you from Xerox Canada and continuously maintained by Xerox Canada under one of our full service maintenance agreements. This guarantee is not applicable to equipment damaged or destroyed due to reasons beyond Xerox Canada's control or responsibility.

## **We share your environmental concerns**

Xerox is committed to the protection of the environment and the health and safety of both our customers and our employees.

We developed and currently market a recycled paper that has achieved the designation "Environmental Choice" from Environment Canada.

We help to reduce the waste stream by recycling reusable parts and by the remanufacture of equipment to the highest standards of quality.

We continue to protect your health and safety by ensuring all Xerox products meet or exceed the strictest government standards.

By choosing Xerox you will share our commitment to the environment while continuing to enjoy the industry standard of performance and reliability that you have come to expect from our products.

**Specifications****Copy speed**

92 per minute, first copy in 6 seconds  
46 sheets per minute for computer forms  
Quantity selector: 1 to 9,999

**Originals**

RDH: 8 x 10 to 8 1/2 x 14, in 13-110 lb. weights,  
up to 75 originals at a time  
SADH: 5 x 8 to 11 x 17, in 9-110 lb. weights  
Computer Forms feeder: Accepts 10-to 24-hole forms,  
up to 3" stack  
Platen: Any size up to 11 x 17, including bound or bulky  
documents

**Throughput**

One-sided copying: 8 x 10 1/2 to 8 1/2 x 14, in 16-110 lb. weights  
Two-sided copying: 8 x 10 1/2 to 8 1/2 x 14, in 20-110 lb. weights  
Plain bonds, coloured stock, index stock, pre-printed forms,  
adhesive labels and transparencies

**Paper supply**

Tray 1: 1100 sheets (20 lb. substance)  
Tray 2: 600 sheets (20 lb. substance)  
Continuous run while loading

**Reduction/Enlargement**

Variable in 1% increments from 64% to 155%  
Automatic ratio selection for 6 original sizes

**Two-sided copying**

1-sided to 2-sided, 2-sided to 2-sided, 2-sided to 1-sided  
Dedicated two-sided tray: 50-sheet capacity  
Image Shift Program on side 2 (up to 8/10")

**Finisher**

Staples up to 50 sheets per set. 30,000 staple capacity  
One staple position (upper left corner)

**Off-line Stapler**

Staples up to 30 sheets per set with flexible positioning  
5,000 staple capacity

**Offset Catch Tray**

2,000 unstapled sheets, or equally high stack of stapled sets

**Top Output Tray**

100-sheet capacity (20 lb. stock)

**Covers Insertion**

Front, back or both

**Electronic Auditron**

2500 Accounting mode accounts, or 625 Controlled Access  
accounts, with optional copy limits

**Copy Contrast**

29 available programs, including: 9 for pre-programming,  
Chapterization, Variable Sheet Insertion, and Sample Copy

**Size and Weight**

Width 260 cm (102"), Depth 89 cm (35"), Height 130 cm  
(51"), Weight 629 kg (1386 lbs.)

**Space Requirements**

Movable: Width 330 cm (130") x Depth 180 cm (71")  
Stationary: Width 348 cm (137") x Depth 224 cm (88")  
With ASF: Width 356 cm (140") x Depth 262 cm (103")

**Electrical Requirements**

Sole use of a 30 Ampere, 208/240 Volt Source

**Heat Emission**

Standby 1,559 BTU/hour, Running 8,550 BTU/hour  
maximum

**RIC Telephone Requirements**

Sole-use of a dedicated standard voice grade analog line  
direct dial pulse or tone  
Jack within 3' of power receptacle

**Optional ASF Specifications****Capacity**

Up to 16 sheets 20 lb. (80 g/m<sup>2</sup>) (64 - 8 1/2 x 5 1/2 pages  
reduced from 8 1/2 x 11) in an 8 1/2 x 5 1/2 folder  
Maximum size sheet 8 1/2 x 14

**Paper Weight**

16 to 90 lb. (60 to 200 g/m<sup>2</sup>)

**Speed**

Variable up to 23 booklets per minute

**Stapling**

Saddle stapling, 2 heads. 2 x 420 staples

**Dimensions**

Length 66 cm (26"), Width 90 cm (35.4"),  
Height 60 cm (23.6"), Weight 75 kg (165 lb.)

**Electrical requirement**

115 V/50 Hz/15 Amp.
